

Inbound Script when talking to LG Rep:

CONF: Hello, RESINC Solar, [Confirmer Name] speaking.

D2D: Hi [Confirmer Name], it's [LG Rep Name] here on the [Location]. I've got [Customer Name] with me and they would like to see if a specialist is available tomorrow at 3pm.

CONF: Of course, let me check that for you.

Yes, we do have a slot available for this time with [Solar Specialist Name].

D2D: Thanks! The appointment is for [Customers Name] and [Partners Name]. I'll pass [Customers Name] over to you now.

Inbound Script when talking to the Customer:

Step 1: Introduction & Confirmation

"Hi [Customer Name], it's [Your Name] here from the RESINC office. I'm just confirming that we have you and [Partner's Name] booked in with [Specialist Name] at [Time] tomorrow."

Step 3: Explain Next Steps / What to Expect

"Perfect. Once your details come through into our system, we'll go ahead and lock that booking in for you."

"Your session will be held via Zoom, and you'll receive an email and SMS shortly with all the details."

"About 15 minutes before your session, you'll receive your Zoom meeting link."

"Please keep an eye on your spam or junk folder in case the email lands there."

"We also recommend jumping on a few minutes early to test the link and audio, just so we can get started on time."

Step 4: Close the Call

"That's everything from me. You're all set for tomorrow — thank you, and we look forward to seeing yourself and [Partner's Name] then, Have a great rest of your day!"

If the requested slot isn't available:

CONF: No problem, let me check that for you.

I'm sorry, [D2D Name], that timeslot isn't available. However, I can offer you these other options tomorrow at [Alternative Times] — would any of these work?

Would you like me to hold while you check with [Customer Name], or would you prefer to select another day?

(Team guidance: Try to offer an alternative time for the next day if possible. If no next-day appointments are available, the verification call isn't required.)

D2D: Thanks, yes, [Alternative Time] will work. The appointment is for [Customer Name]. I'll pass them over to you now.

Continue with the regular process from this point.

OR:

D2D: Oh, [Original Time] was the only option that would have worked tomorrow. Thanks anyway, [CONF Name]. I'll try to book another appointment later in the week.

Maintain rapport and professionalism. The D2D can rebook for another day later in the week.
